These gentlemen love the Internet.

Help us learn if next year's freshmen love the Internet, too.

This summer and fall, IU researchers will be asking incoming freshmen at colleges and universities across the country about their computer ownership, access, and use. But first, we need your help. We need to know if we'll be asking the right questions and if we're asking good questions. We need to **interview five IU undergraduates** about their computer ownership, access, and use. Interviews will take between 30 minutes and 1 hour. **Participants will be paid $10 cash.**

If you have any questions, please contact Kevin Guidry in the IU Center for Postsecondary Research at kguidry@indiana.edu or (812) 856-0113.

Computer interview
